

Did you know that:

- The ocean constitutes over 90% of the habitable space on the planet.
- An estimated 50-80% of all life on earth is found under the ocean surface.
- Approximately 12% of the land area is protected, compared to roughly 1% of the world ocean and adjacent seas.
- Coral reefs are the nurseries of the oceans and are biodiversity hot spots.

Beach of Quality:

Beach of Quality is an award showing that a beach has achieved 70% of the Blue Flag criteria.

What is Blue Flag?

Blue Flag aims to contribute to sustainable development by promoting:

- Environmental education
- The integration of conservation and development
- Healthy and safe environments
- Sound environmental values and sustainable lifestyles
- Individual and community action
- Appropriate policies and decisions
- Ongoing organisational development

Blue Flag

An international eco-label awarded to beaches and marinas

Printed on paper from sustainably managed forests
